Confirmation No.	4580

**STATEMENT OF INTERVIEW SUBSTANCE**

Applicants agree with the Examiner's October 14, 2010 Interview Summary, noting the substance of the October 5, 2010 telephone interview with Dr. Rajagopalan and the undersigned, but request a clarification. The Examiner's phrase "nitrogen radicals" in describing the secondary reference should be "nitrene". Triplet nitrene behaves like a radical, but singlet nitrene behaves like a zwitterion.

Respectfully submitted,
